FOR IMMEDIATE RELEASE

## KEY WEST GLOBAL TELECOMMUNICATIONS BERHAD EXPANDS INTO THE PHILIPPINES

**Key West Global Telecommunications Berhad participates in the Philippines economy by establishing a partly-owned subsidiary.**

***Kuala Lumpur, Malaysia – November 24, 2005*** – Key West Global Telecommunications Berhad (KGTB), a leading wholesale provider of international voice and fax long-distance services, announced today the launch of a new partly-owned subsidiary, Key West Data Network Inc (KeyWest).

KGTB will establish this incorporation in the Philippines to strengthen its commitment to offer superior service in terms of quality, value, and unparalleled customer support for its growing international client base.

To this end, a call centre will be incorporated within the Philippines organization. Its main focus will be to provide a state-of-the-art backend infrastructure as well as an outbound/inbound multilingual customer service that will cater to the English, Tagalog, and Spanish speaking customers of their North American and Australian retail subsidiaries, Times Telecom.

KeyWest recognizes the Philippine's growing Internet-related communications need, and has accordingly applied for an ISP license. This license application is considered to be a platform for more opportunities to expand into the Philippines.

40% of this subsidiary will be owned by KGTB, while the remaining 60% will be held by private Filipino shareholders.

**Key West Global Telecommunications Berhad is a long-distance carrier's carrier of international voice and fax long distance services. To date, KeyWest has established 29 POPs (Points of Presence) within Asia and North America. KeyWest utilises traditional and packet-switching technology to send voice, fax and text services into data packets and routes them over a virtual private network. KeyWest is a publicly-traded corporation listed on the MESDAQ Market of Bursa Malaysia Securities Berhad with offices in Canada, the USA, Hong Kong, Australia and Brunei.
